

***Unitask Announces Impact Analysis and Rollback for Oracle E-Business Suite:
Offering Provides Predictive Change for OEBS Management***

Cincinnati, OH August 11, 2009 — Unitask Software, a leading provider of solutions for the Oracle E-Business Application market, today announced the immediate availability of Impact Analysis and Rollback for Migration Change Management within the Oracle EBS Suite. Designed for full support of the demanding Oracle E-Business Suite enterprise, Migration Director Impact Analysis and Rollback continues to deliver on the company's promise of "Do-More – Pay Less" solution sets.

With this release, Unitask continues to lead in the elimination of operational challenges organizations face in the implementation and deployment for Change Management within OEBS and the Enterprise. Specifically designed to provide advanced viewing and consequential analysis prior to changes being implemented, this advanced solutions provides knowledge and insight to further simplify the ability to centrally view, execute, control and report on the system. Coupled with sophisticated logic to return the system to a stable state via its Rollback Capability, Unitask Migration now provides deployability of best practices for change in a safe and practical manner.

"Change is a constant for every sized organization, large or small, in today's market. Being able to accommodate that necessary change with discipline and with advanced knowledge of results provides for a competitive advantage for corporations. Ensuring this discipline and predicatively safe approach to change is a must, especially for geographically dispersed global organizations," said Dale D. Royal, Unitask Chairman and CEO.

Migration Director Impact Analysis and Rollback for Oracle E-Business continues the market reach of the Unitask Application Management Suite, delivering a scalable, high performance migration solution across the enterprise. With immediate support for Oracle EBS versions 11i as well as R12, Unitask Migration Director delivers the ability to quickly and efficiently promote required object changes between Oracle instances and does so with simplicity and intelligence.

With this introduction, Unitask extends its leadership for Enterprise Change and Migration enabled solutions for the Oracle EBS marketplace. Unitask Migration Director delivers an ROI often achieved in less than six months by providing a consistent methodology of insight, control and management. This enabling solution set allows for:

- Predictive Analysis of Change prior to execution
- Rapid and immediate rollback of unstable change or error
- Reduced operational burden and expenses
- Compliance and governance adherence
- Extendability into existing ALM and Version Control infrastructure
