

FOR IMMEDIATE RELEASE

Unitask Announces Change Control Dashboard for Oracle E-Business Suite: *Unitask Provides Additional Functionality in Migration Director, a Low-Cost Oracle Enhancement which Allows the Enterprise to Address the Manual Challenges of Packaging and Deploying Changes in the E-Business Suite*

Bloomfield Hills, MI—July 13, 2010—Unitask Software, a Gold member of the Oracle® PartnerNetwork and a leading provider of solutions for Oracle® E-Business Suite customers, today announced the immediate availability of the Change Control Dashboard for Migration Director, an enterprise class solution that automates the processes of implementing changes within the Oracle E-Business Suite.

Designed to speed deployment while eliminating error-prone, site-specific custom programming, Migration Director Change Control Dashboard from Unitask continues to deliver on the company's promise of "Do More—Pay Less" solutions sets.

With this introduction, Unitask extends its leadership for Enterprise Change and Migration solutions in the Oracle E-Business Suite marketplace. Delivering an ROI most often achieved in less than six months, Migration Director Elite is an Oracle E-Business Suite module add-in that allows burdened technical resources to respond quickly to demands for change by business users, as well as handle required upgrades and changes between systems.

"Unitask continues to improve our ability to lead in the elimination of operational challenges organizations face in the administration of the Oracle E-Business Suite. With the release of Change Control Dashboard for Migration Director, Unitask has provided a simple solution to the complex problem of change management," said Dale D. Royal, Chairman and CEO of Unitask.

Unitask designed Migration Director to further enable application availability through consistency and repeatability of efficient systems practices for control of the enterprise backbone applications. This uniformity provides for better auditability, risk mitigation, and cross-discipline integration, all while making systems available and useable.

Migration Director's complete change management solution provides a single window into change processes, allowing users to categorize types of change and present a graphical representation of the change process. This level of granular analysis improves communication to management and allows individuals to customize their view.

About Unitask

Unitask is committed to helping organizations implement, manage and run their Oracle E-Business Suite. Unitask creates, sells and supports software products based on experience gained from over a decade of Oracle E-Business Suite implementation projects. Customers of the Oracle E-Business Suite around the world rely on Unitask products to eliminate implementation and operational risk, improve the quality of the application and accelerate time-to-value.
